# BOTFOLIO

## SMART TRADE

Botfolio is a platform for trading exchanges and provides a portal of gaming. Botfolio and its technicalities provide a smooth framework and a trait service to its consumer which helps in efficient trading. The utility of a Botfolio holds the capability to dominate a present working currency and hold the position in the marketplace. Expertise in technology as well as a master of artificial intelligence is a deadly combination which the Botfolio holds. Botfolio has a team of experts who analyse the market and understands the utility as well as the demand of the market helps in providing efficiency and the services that are in demand.

# MISSION AND VISION

Botfolio has a mission of providing a trading platform a new version of trading known as copy trading. In the term of exchange word for your performance is really impressive and always provides a leading graph towards success we also have a variety of portals for the gaming community so that the interaction between the Gamers and the trading between them can be easy convenient and entertaining. We also have NFT which works as a utility in the gaming world. A powerful token always works as a utility and provides a strength the currency our vision is to attain the heights of stability and success providing over users a better functionality and returns.

# BOT-TRADING AND FEATURES

BOT trading is basically a concept run by artificial intelligence robots that will deal in trading. The artificially handed software will cell by and hold a trade according to the previous graph and strategies. In this artificial bot can understand the flow of market and also can use the permutation and combinations to assume the flow of the market which will lead to their strategies and let them know the working they have to do with the stocks.

**What trading has a feature of dealing and stock exchanges crypto traders that can buy sell and convert cryptocurrencies on crypto market.**

## MINI EXCHANGE

Botfolio has a value of trust which is highly required when the matter of exchange comes in contact.
